

REMARKS

The amendments made to the specification were made to insert the correct tables (1 - 6) and to correct two minor errors in the text.

The amendments made to the Claims were made to eliminate multiple dependent claims. The effect of the amendments relate only to matters of form, and the substance of the Claims remain the same. Support for each of the newly added Claims can be found in the Specification. It is respectfully submitted that no new matter has been added by any of the amendments to the Claims. Also, amendments were made to claims 2 and 3 to correct text that was improperly underlined.

It is submitted that the present amendment places the application in good form for allowance, and an early and favorable action for this application is respectfully solicited.

Respectfully submitted,
